**COVER NOTE****TENDER EXPECTATION:**

Dear Sir/Madam,

We appreciate your interest in submitting a tender for our Jackpot amount buntings. To ensure the final product meets our quality expectations, we would like to outline some important specifications and standards.

In addition to the provided specifications, we expect the quoted price to reflect the use of appropriate bunting quality, durable material, and a neat, professional finish, as outlined in the specifications and your sample. It is important that the final product is free from any visible defects, such as misalignment in printing or finishing, and that the buntings are properly secured to ensure longevity. The bunting should stand well without any folding or bending issues and maintain its structure throughout regular use.

Since these buntings will be displayed prominently at our outlets, they represent our brand image. Therefore, it is essential that the production process meets the highest standards of quality and consistency. The bunting should reflect the professionalism and values of our brand, ensuring a positive impression with every customer interaction.

Should any defects be identified, the vendor will also be responsible for replacing the items at no additional cost.

If selected, we kindly request open communication throughout the production process to address any concerns or adjustments promptly.

We require **printing samples prior to full production** to ensure the final product aligns with our expectations. Please be advised that if the sample does not meet our quality standards, we **will not proceed to full production**. Additionally, all produced units must strictly adhere to the quality and specifications of the final approved sample. Any deviations from the approved sample will be rejected.

Additionally, we also request that vendors provide information on previous clients they have supplied, particularly large corporations or companies. This information will help us assess experience and credibility in delivering quality-controlled products.

We appreciate your collaboration and expect that vendors who submit their tenders will also play an active role in ensuring quality control throughout the process and meet our required delivery deadline. We look forward to working with a vendor who aligns with our values and quality expectations.

Thank you for your attention to these details.

**Magnum 4D Berhad** (132431-D)  
Wisma Magnum, 111 Jalan Pudu,  
55100 Kuala Lumpur, Malaysia.
